

**JOURNEYMAN TO APPRENTICE**  
**RATIO**

The current ratio is 1-1 for the first two apprentices. For every additional apprentice after the first two you must have an additional 3 journeymen.

#of Apprentices you have=# of JP required

1	1
2	2
3	5
4	8
5	11
6	14
7	17
8	20

The formula to figure the above is

# of Apprentices x 3-4= # JP you are required to have.
